SUMMARY

Frontend developer with **10+ years of experience**, currently leading the shared HubSpot theme that powers the websites of **50+ companies** across the Visma group. Comfortable across the full delivery cycle — planning, development, QA, CI/CD and customer support — with a recent focus on embedding **agentic AI** into everyday development workflows.

EXPERIENCE

Lead Frontend Developer · Visma

Apr 2023 – Present

Porto, Portugal – Remote

- **Lead the custom HubSpot theme** powering the websites of 50+ companies across the Visma group.
- Own the project end to end — planning, prioritisation and delivery, tracked in Jira.
- Develop and maintain the shared theme and component library used across all sites.
- Manage the Azure DevOps deployment pipeline for reliable, repeatable releases.
- Run QA and support the internal teams building on the theme.
- Introduced agentic AI into the workflow with Claude Code — speeding up delivery and cutting manual work.

Frontend Developer · YouLead

Jul 2022 – Mar 2023

Porto, Portugal

- Built a custom HubSpot theme for one of Portugal's leading insurance companies.
